

Calm for your skin.

Care for skin prone to psoriasis — 100% plant-based, made from Indian wood apple.

✓ Clinically tested

✓ Steroid-free

✓ Dermatologist recommended

"Finally a care product that calms my skin — without cortisone."

Alfurin was developed specifically for people living with flaking, redness, and itching.

What Alfurin does for you

- ✓ Relieves **flaking, redness, and itching** on skin prone to psoriasis
- ✓ Strengthens the **natural skin barrier** and supports moisture balance
- ✓ **Steroid-free** — suitable for long-term, repeated use
- ✓ Derived from the bark extract of the **Indian wood apple (Limonia acidissima)**
- ✓ No evidence of **skin thinning** or rebound effects upon discontinuation
- ✓ Well tolerated — can also be used **alongside medical treatment**

How to use Alfurin

1

Cleanse and dry the affected areas thoroughly morning and evening

2

Apply a thin layer of lotion or cream to the affected areas

3

Massage in gently until fully absorbed

4

Use regularly — also suitable for ongoing daily care

Good to know

Alfurin is a **cosmetic product** for the care of skin prone to psoriasis and does not replace medical diagnosis or treatment. Please feel free to discuss its use with your doctor or pharmacy team — especially if you are using other medication. Available exclusively at select pharmacies.

*Results from a single-center, open-label clinical safety and efficacy study in 10 healthy adult volunteers over a 20-day treatment period, conducted in accordance with the Declaration of Helsinki, ICH-GCP, and Indian GCP guidelines. Individual results may vary. Alfurin is a cosmetic product as defined by Regulation (EC) No. 1223/2009 and is not a medicinal product.
